Lunations and Long-term Aspects

The Full Moon on September 12 occurs in fellow Mutable Sign, Pisces, your 10th House of career, reputation, status and public image so watch for an ending or culmination with regard to something in this part of your life. Remember that "status" is a vague and broad reference which includes, among other things, anything which may show up in the newspaper or public record. This involves such things as licenses, *e.g.* getting married or conversely divorced; obtaining a business license; receiving an honor or award or conversely arrested; becoming a parent or your last child moving out; becoming a property owner or being foreclosed upon *et cetera* and so forth. If your birthday is right around June 11 this is likely to be even more noticeable with the lunation further strengthened by the fact that the Lunar Nodes are also aspecting your Natal Sun, a transit which typically brings a life change of some description. Since this creates a T-square with your Natal Sun at the apex this is likely to bring some tension and perhaps a crisis which relate to you, personally as well as your home environment and status. One example of such an event could be obtaining a new career track job which requires or perhaps allows for a move. Not all stressful situations are inherently bad; even opportunities often necessitate extra work and other actions that can be stressful. Most people perform better with such a push.

One aspect pattern worth pointing out is a variety of aspects connecting your sign ruler, Mercury, with Uranus and Pluto. Thank heavens Mercury is no longer retrograde and by the time of the Full Moon will have exited from the shadow period so that true progress can now be made. Mercury is dignified as well as exalted in Virgo which allows him to function at his very best and he is located in your 4th house of home environment, cultural roots, memories and endings.

Watch for information or some other form of communication to come your way which affects this part of your life; if your birthday is right around May 27 this is even more likely to occur. This will also involve a surprise, but hopefully a pleasant one, which involves a friend, organization or networking activities which delivers this information and brings about a change of course. It will also involve a transformation of some description, but again this should be of a positive nature in the long haul. For example, you may obtain a new position or a promotion which causes you to work harder yet also propel you farther up the career ladder of your choice. Be sure to factor in some rest and recreation during this period to either savor the positive things which have come your way or renew yourself to take on any challenges, even if it simply involves taking a few days off to relax around home.

The New Moon on September 27 is in fellow Air Sign, Libra, your 5th house of ego definition, creativity, children, romance, entertainment and speculation. This is an

excellent time to begin a new creative endeavor, especially if your birthday is within a day or so of May 26. Watch for an opportunity which allows you to get started on something you've been hoping to accomplish, which could come your way out of the blue. Again, this could come about through the benefits of a friendship or networking though it may simply reflect an unexpected chance to pursue one of your long-term goals. This will not necessarily be handed to you, however, but is going to require some hard work on your part. Inspiration is there but you are going to have to make the effort required to access it. In other words, if you don't make the time for quiet contemplation you won't be able to truly be able to envision what needs to be done. Bear in mind that Pluto is transiting your 8th house of transformations, debt, shared resources and intense experiences. Pluto tied into this situation suggests that it will necessitate or provide the vehicle for a major change of some sort and a change of course or direction.

This creative endeavor or other 5th house activity is going to involve a fair amount of tension and effort which is going to further reinforce a transformation. There is also the possibility that it is going to involve financial resources which you may not have, thus requiring an investor or borrowing money; remember it takes money to make money. Thus, attaining this goal or perhaps working with an organization or associate is also going to involving juggling a variety of things in order to bring this particular opportunity to fruition. It's important to note, however, that though the project itself is going to involve some tension, you are well positioned for it and will have numerous things going for you, perhaps a lot of enthusiasm or a very positive attitude, which will help you make it through it all and come out smelling like a rose when all is said and done.
