Chapter 1: How You Approach Life and How You Appear To Others

Gemini Rising:

You are always questioning and learning, and you seem young and alive no matter what your chronological age, for your mind is always alert, curious, flexible and open to new experiences. You have a childlike enthusiasm for anything new and you learn easily, but you also get bored rather quickly. You can be something of a scatterbrain, for you tend to have so many ideas and irons in the fire that it is hard to keep track of them all. You need and crave variety, change, mental stimulation, and an active social life.

Articulate, clever, often funny and witty, you are always a refreshing and interesting conversationalist. You enjoy meeting and interacting with a variety of different people. You are friendly, flirtatious, and charming in a light, playful way, and no matter how badly you may be feeling, you never appear heavy or somber. You may seem frivolous to other, more serious souls. You have a sense of humor and a sense of perspective that prevents you from taking yourself or life too seriously. In fact, you may seem flippant or unconcerned about matters that others consider very important.

In general, you respond to life mentally and objectively rather than emotionally, and you may not empathize with people very much. You do not like to be weighed down with too much responsibility or with others' emotional burdens. Furthermore, if you cannot UNDERSTAND something reasonably and logically, then very often you would prefer to ignore it, including your own and other people's irrational feelings, desires, and needs.

Consistency and reliability are not great virtues of yours and your life is apt to be full of changes and movement due to your restlessness. You become nervous and fidgety if things are not moving quickly enough. You are interested in what is current and up-to-date, the newest trends in thought or style.

Your gifts are a quick mind, verbal facility, a flair for language, social sophistication and polish, the ability to communicate, converse, and build bridges between people and between ideas. You tend to become an incessant chatterbox or gossip if you do not have work or other involvements that utilize your mental, verbal, and social skills.

Chapter 2: The Inner You: Your Real Motivation

Sun in Scorpio:

Quiet, deep, emotionally complex and intensely private, you are not a person who is easy to get to know and understand. You are extremely sensitive but disinclined to show it, and you allow only a special few into your inner world. Like a wary animal, you are cautious and mistrustful of those you do not know until you "sniff them out". You are very, very instinctive and intuitive. You usually have a strong, immediate gut reaction to people, even though you may be unable to clearly articulate why you feel as you do. Your feelings and perceptions go deeper than words.

You also have a powerful need for deep emotional involvement and you form very intense love bonds and attachments. You are possessive and often jealous of anyone or anything that you perceive as a threat to your bond with someone you love. When you commit yourself to someone or something, you are wholeheartedly devoted and expect complete loyalty in return. You merge with or "marry" the person you love at a very deep level and therefore separations are extremely painful for you, and often stormy and nasty. When you have been wounded, you are not inclined to turn the other cheek and will retaliate if at all possible. Certainly you will never forget the injury and often you harbor grievances and resentments for a long, long time. Forgiveness doesn't come easily to you.

Whatever you do, you do with passion and fervor, and you often go to extremes. You are either hot or cold, never lukewarm about anything. You can also be very narrow: either you are 100% involved in something or else it doesn't exist for you at all. Rarely are you emotionally detached and objective. You definitely have a fanatical streak. You are also immensely strong-willed and your tenacity in pursuing your objectives often borders on being obsessive. Fierce pride, courage, and emotional strength are yours in abundance.

You love mysteries and are deeply attracted to the hidden, dark, secret side of life. You never take things at face value and are always probing beneath the surface of people and situations to discover what is REALLY going on. You tend to be more of a cynic than an idealist.

Sun in 5th house:

You have a very dramatic, creative, expressive nature and you love to perform. You enjoy being the center of attention and you seek to shine, to excel, and to be outstanding in some unique way. You are very involved in your own creativity and self-expression, and take great pleasure in developing and using your special talents, whether these are artistic, athletic, or intellectual. You have a strong sense of pride.

Chapter 3: Mental Interests and Abilities

Mercury in Scorpio:

You have good mental concentration and the ability to become completely immersed in your work. You seem to know things at an instinctive, nonverbal level and prefer learning through direct experience or apprenticeship rather than vicariously via books or lectures. You have mechanical ability and work well with your hands. You could become adept at sculpture, pottery, carpentry, stained glass, or anything that involves doing and making things manually. Biology (and related fields such as medicine) interests you as well. You also have an instinctive rapport with animals, and may feel you relate better to them than to people! You tend to become narrowly focused upon your own specialized interests and may not have much to say or communicate outside that field.

Mercury in 6th house:

You use your mind to organize, classify, and bring order to your environment. You are interested in the refinement of your technical skills and abilities and are a stickler for details. Organizational and secretarial skills, training others in your area of expertise, or work involving teaching and communications are highly probable for you.

Mercury Conjunction Venus:

You appreciate aesthetics and have a fine sense of form, design, and beauty. You could develop considerable technical skill as an artist, designer, craftsman, or creative writer. You could also sell objects of beauty - artistic products, cosmetics, jewelry, etc.

You have the ability to please and harmonize well with others and tend to ameliorate relationships between people. Your sense of humor, tact, and personal charm are of great benefit to you in any work with people on a one-to-one level.

Mercury Square Saturn:

You have an aptitude for solving difficult mental problems due to your careful, methodical approach, attention to detail, and tenacity in following a matter through to its conclusion. You have good powers of concentration and enjoy studying and thinking in solitude. You can get wrapped up entirely in your own thoughts and completely engrossed in some small detail. You are slow and cautious, but extremely thorough in your work. Conservative and something of a skeptic, you may be narrow-minded or closed to any idea which has no concrete proof or scientific verification. You prefer dealing with facts rather than abstract speculation. You may also be distrustful or fearful

of anything you cannot understand with your rational mind. You are well-suited to work in research or any field that requires careful study and thought.

Chapter 4: Emotions: Moods, Feelings, Romance

Moon in Pisces:

Tenderhearted and sympathetic to an unusual degree, you have an understanding of other people's feelings and needs which borders on being telepathic. You are extremely compassionate and cannot bear to see any fellow creature - be it human or animal - suffer. Because of your kindness and nonjudgmental attitude, people in pain or confusion are drawn to you for help, which you readily give. Sometimes your softheartedness is taken advantage of.

You are a gentle, poetic soul and have a great love and affinity for music. Because many of your feelings are nebulous and vague and you cannot easily verbalize how you experience life, music seems a natural language for you. You are also tremendously romantic and are often "in love with love".

Moon in 10th house:

You work well with the public and have an instinct for what the public wants and will respond to. Having a "nest" is not especially important to you, and you may invest more of your emotional energy into your career or public life than in your private life. Providing for and caring for others in a professional capacity is very likely.

Moon Square Uranus:

You crave excitement, change, and discovery, and cannot tolerate a routine or lifestyle that offers little in the way of surprise or challenge. Excitable, spontaneous, and enthusiastic about anything new, you may be perceived by others as being too impulsive, especially in personal relationships. It is not easy for you to make or keep commitments, since you don't know how you will be feeling from one day to the next. Emotional freedom is very important to you. Your domestic life can be very unstable - but you like it that way.

Moon Trine Jupiter:

You are easygoing, agreeable, and tolerant, willing to overlook others' mistakes, forget the past, and begin again on a positive note. You enjoy making others comfortable and happy, and sometimes overdo your generosity. You often feel that "everything will turn out all right no matter what I do", and so become lazy and lackadaisical.

Venus in Scorpio:

In love, you desire a deep, intense, passionate union with your beloved and form very strong emotional bonds and attachments. You "marry" the person you love at a very deep emotional level, and are often extremely possessive and jealous of any threat to that union. You can be very demanding with your love partner. You tend to be somewhat suspicious of even platonic, friendly relationships your partner has. If you are ever betrayed, you are capable of hating with as much force and intensity as you once loved. You are attracted to people who have an aura of mystery about them.

Venus in 5th house:

You love romance and wish the honeymoon phase of your love affairs would last forever! You need dramatic romantic gestures and displays of affection from your partner, and you want to feel very, very special, like a King or Queen, to your beloved. You also have an artistic flair and enjoy creating art or beauty in some form.

Venus Square Mars:

You are intensely amorous and attractive to the opposite sex, and are not inclined to friendly platonic relationships. There is much tension in your love life - often because you put your desires ahead of your partner's, and are impatient about having your love needs satisfied. The whole arena of love, romance, and sex is endlessly fascinating for you and you are not happy without a love partner. You can "burn yourself out" by pouring so much of your energy into romance.

Venus Square Saturn:

You are serious and find it difficult to enjoy yourself in a lighthearted, open and playful way with others. You rarely do something purely for pleasure, and can be very close-fisted and parsimonious. Perhaps due to painful separations in your early life, you are very cautious about becoming close to people and sharing your feelings. Though you crave love and affection, intimacy is difficult for you. You may become romantically involved with people who do not value you or treat you well. You need to learn to love and value yourself before you will find happiness in love.

Venus Square Pluto:

You experience powerful, compelling emotional and sexual attractions, and you may feel that you have little choice or control over your desires. You have an intense need for love and may be emotionally greedy or insatiable. Your love life is passionate and often tumultuous and painful as well. Jealousy, power struggles, or over-possessiveness can

become areas of conflict in your relationships. Positively, you can be unusually creative and bring about beneficial and healing changes in the lives of others, motivated by your deeply felt love.

Chapter 5: Drive and Ambition: How You Achieve Your Goals

Mars in Leo:

You are proud and ambitious, and you strive to excel, to stand out and be recognized for who and what you are. You have a very strong ego drive and like to be Number One. You find it difficult to take orders from others or to stay in the background, and you hate being wrong; you always insist that you are right!

You are forceful, strong, energetic, determined, and highly competitive. You play hard, you play to win, and you do not give up easily. In fact, you see life as a competitive sport or performance. You love admiration and applause, and you have a strong sense of personal honor and integrity. You tend to be very self-confident, even arrogant. Because of your belief in yourself, you are able to accomplish much, but if your confidence is ever undermined, you become self-conscious, defensive, and rather belligerent.

Mars in 3rd house:

Quick-witted and sharp-tongued, you enjoy arguing, debating, and contesting other people's opinions. You are quite forthright and sometimes tactless. You can be very convincing about your point of view, but you are prone to a "hard-sell" approach which sometimes backfires. Challenging mental work is a good avenue for your aggressive intellect.

Mars Conjunct Pluto:

When you want something, you go after it with passionate zeal and are sometimes so driven by your desire that you lose all objectivity. You get so deeply involved in whatever you are pursuing that you become one-sided, even fanatical. Strong-willed and stubborn, you insist on having your way no matter the cost. You are fascinated with power. You often try to overpower anything or anyone you perceive as an obstacle, if not physically then by the force of your will. You can be ruthless and impersonal when it comes to achieving your ambitions and goals in life. You have enormous energy and are capable of extraordinary effort and great achievement. You can also become a compulsive workaholic.

Mars Sextile Neptune:

You dream up creative solutions to problems and take an imaginative, unusual approach to getting a job done. When difficulties arise you prefer to avoid conflict and confrontation in favor of more peaceful or subtle methods of resolving problems. Working to help others or for a cause that transcends your own narrow, personal interests is satisfying for you. You have an artistic flair and appreciate the colorful, unique, or strange.

Chapter 6: Other Influences

Jupiter in Sagittarius:

Your strength lies in your ability to see the whole, rather than only the parts which compose it. You have a deep need to explore the world and to develop your own philosophy of life and sense of personal meaning. You vacillate between being open-minded and tolerant of differing views, and being dogmatic or overly zealous about your own viewpoint.

Jupiter in 6th house:

You have a positive and constructive attitude toward work and what other people might consider drudgery. You enjoy helping people improve their lives, and the more service you render, the more benefits and rewards you find coming back to you. Promoting health in some manner is a very good avenue for you.

Saturn in Leo:

You are very self-conscious and have a great need for ego-affirmation and praise. Expressing yourself freely, openly, and unself-consciously is not easy for you. You tend to work hard at playing and "having fun", rather than being light-hearted and spontaneous. Developing self-love and self-acceptance regardless of your "performance" is an important task for you.

Saturn in 3rd house:

You are serious-minded and may have difficulty making light social conversation or participating in friendly, personal interchanges.

You try to be strictly accurate and are critical of people who exaggerate or talk on subjects they really know little about. You withhold your thoughts and opinions until you

have thought everything through quite thoroughly, and sometimes your silence discomforts others.

Your mental concentration is very good but your breadth of understanding may not be.

Saturn Conjunct Pluto:

You are suspicious of groups, crowds, and social organizations. You are quick to notice social games and insincerities, and you avoid the limelight and glamour. You are direct and to the point in speech and manner, stubborn and inflexible, and often unwilling to communicate your innermost feelings and thoughts.

Uranus in Gemini:

You are part of a 7 year group of people who are progressive and creative thinkers. Academic achievement is high and academic standards are higher with your age group than with others. You are a curious and inquisitive bunch, and many discoveries and clever insights are brought forth from your age group. The love of learning never dies with your age group, and your curiosity and inquisitiveness does not wane in later life, as is common with others.

Uranus in 12th house:

Most people do not see your wild, daring, "crazy" side, and you yourself may be unaware of it! You tend to hold back the unconventional, inventive, impulsive side of you nature - or to live it out only in your private fantasies. You may have strange dreams!

Neptune in Libra:

You are part of a 14 year group of people who have a very idealistic sense of brotherhood and universal cooperation, which, among other things, fostered the peace and freedom movement. Your age group is also interested in the spiritual philosophy and ideals of other cultures, and is not at all dogmatic in its approach to religion. You incorporate the approaches of other religions. Your age group tends to have an eclectic approach to religion, utilizing elements from many religious perspectives (e.g. Eastern and Western), and finds it difficult to follow traditionally defined religious practices.

A gullibility and an unwillingness to be decisive and judgmental inclines your age group to be easily deceived, and consequently many of the well-intended ideals and goals are frustrated by a lack of clear purpose and direction.

Neptune in 5th house:

Your creative self-expression has a very imaginative quality, and you have a particular affinity for drama, theater, film, and other artistic mediums in which creative fantasy plays a major role.

In love and romance, also, you often have glamorous fantasies that have little to do with reality.

Neptune Sextile Pluto:

The entire generation to which you belong has tremendous opportunities for spiritual rebirth and awakening. This will not be forced upon you or precipitated by unavoidable events, rather it comes from an inner yearning and a natural propensity to seek the depths.

Pluto in Leo:

You are part of a 20 year period that is often referred to as the "ME" generation, a generation that has a very proud and self-reliant attitude. You are a generation that is very concerned with self-development and personal integrity. Women's rights and minority rights are issues that your generation has fostered and they reflect your concern with individual respect, integrity, and honor. Your age group has a deeply felt sense that each person has an equal right and opportunity to fully develop his or her inner potential.

However, your group also finds it difficult to be part of a team and a strong egotism makes group efforts difficult; you tend to see the individual as more important than the group. You also defy authority and often feel that no one has the right to tell you what to do. The strong movement to refuse drafting into the military is one example of your age group's strong sense of individual rights and freedom.

Your age group has popularized the idea of self-development, and has contributed a great deal to the development of individual potential as well as human rights. However, there is also a tendency to be rather self-centered; others may wonder how you can spend so much time developing yourselves and have so little time to contribute to your families!

The interest in personal development also sometimes manifests as a fascination with particular individuals and a great deal of hero worship. Every generation, of course, has lots of idols, but your generation is particularly prone to needing a specific individual to represent and embody an idea or feeling, and to serve as a focal point of interest. Perhaps the most extreme example of this is the concept of the guru that was popularized by your age group.

Pluto in 3rd house:

You have a probing, penetrating mind and are highly analytical and critical in your thinking. Work that involves research, investigating mysteries or hidden causes, or deep study and analysis suits you very well.

You are also a convincing speaker, bringing others around to your own point of view by the intensity of your convictions.
